

9th February 2023

Stage 1: History HOME LEARNING

This term in History, Stage 1 students will compare items from the past with present day items. Items to be studied include toys, transport, communication, technology, education and clothing.

Next week in our History lesson, we will be discussing toys from the past.

At home, please talk with your child about a toy that you, a grandparent, or family friend loved as a child. Then, help your child by writing down some answers to the questions below. We will use your answers in class next week. Please attach a photo or a drawing of the toy to this page if you can.

Describe the loved toy from the past:

What was it made from?

Where did it come from (was it bought/made etc)?

Did it have any moving parts?

Please return this page to school by Wednesday 15th February (next Wednesday).

Kind regards, Stage 1 Teachers
